

# SPIN DUCT™

## Professional Air Duct Cleaning System

by: JanSan Manufacturing Co.

You have found one of the most powerful, efficient, affordable, and user friendly professional air duct cleaning equipment on the market today. With technology and features not found in any other air duct cleaning system, the SpinDuct Professional Air Duct Cleaning System is revolutionizing the cleaning industry.

The SpinDuct Professional Air Duct Cleaning System provides rotary air duct cleaning at it's best. This easy to use equipment allows simple, one-man operation to make air duct cleaning more efficient and profitable. Whether you are starting a new air duct cleaning business, adding air duct cleaning services to your existing business, or currently offer air duct cleaning, the SpinDuct system will give your business exclusive technologies and unique features that decrease cleaning times, increase cleanability, improve user-friendliness, and ultimately create more profit.

The SpinDuct Professional Air Duct Cleaning System comes with everything you need to clean air ducts and even dryer vents!

### SpinDuct System Includes

- ◆ SpinDuct Machine
- ◆ 36ft Flexible Rotary Cable
- ◆ 3 RotoFlex-Sweeping™ Brushes: (Dryer Vent Brush, Standard Brush, Large Brush)
- ◆ Vacuum Hoses (Standard & Thin Extension)
- ◆ Professional Air Duct Fogger Machine
- ◆ HEPA rated Vacuum Bags
- ◆ Dusting Brush w/ Adapter
- ◆ SpinDuct Training Video

### Features

- ◆ **Durable, Steel Construction:** Built in the USA with high quality fabricated steel construction for long lasting durability and sound proofing for quieter operation
- ◆ **Separation of Cable/Brush from Vacuum Hose:** The SpinDuct offers greater maneuverability throughout the ductwork, because the cable/brush attachment is separate from the vacuum hose. This allows the brush to maneuver through the duct with greater ease and accuracy.
- ◆ **HEPA Rated Vacuum System:** The SpinDuct contains a high powered vacuum system with HEPA rated vacuum bags to ensure you keep the contaminants removed from the ducts out of the air!
- ◆ **One-Man Operation:** The SpinDuct was designed for ease of operation. The compact design includes hooks and wraps to easily store cords and cables, while the built-in dolly design allows easy maneuvering throughout the home or building being cleaned.
- ◆ **Large 10.5", Non-Marking, No-Flat Wheels:** The large wheels make it easier to climb stairs; while the premium no-flat design ensures that you will not have to worry about running over sharp objects and creating a flat tire. Plus, the wheels are non-marking to ensure you don't mess up your customers' floors!
- ◆ **Beautiful, Powder-Coated Finish:** Your customers see your machine. Why shouldn't it look great? The premium, powder-coated paint gives the SpinDuct a protective, good-looking finish.
- ◆ **RotoFlex-Sweeping™ Brush Technology:** The SpinDuct system is the first & only system on the market to use this new technology. These color-coded brushes were designed to automatically adjust to the size duct being cleaned. Also, the precision angled brushes produce a reverse brushing action to sweep debris back to the vacuum hose. Safe to use on all types of ductwork!
- ◆ **Power:** The SpinDuct uses a powerful motor driven system designed to produce consistent, rotary action throughout the length of the duct. Long duct runs and twist and turns are no match for the spinning power of the SpinDuct. The vacuum system runs on its own twist lock power cord to ensure top suction performance.
- ◆ **Remote w/ Belt Clip:** The SpinDuct system is operated by a remote which allows the technician to have full control at his/her fingertips. The technician can easily turn the cable spin on/off and in forward/reverse. Plus, the remote belt clip ensures added safety and security by keeping the remote on the technician at all times.
- ◆ **Fogger Outlet:** No need to find a separate outlet for the fogger. The SpinDuct has a front electrical outlet you can use for the included Professional Fogger.
- ◆ **Cable/Cord Hooks:** Convenient hooks allow easy storage of the remote and power cords.
- ◆ **Warranty:** The SpinDuct comes with a 2 Year Manufacturer's Limited Parts & Labor Warranty.

### Specifications

- **Dimensions:** SpinDuct Machine: 38-1/2"H x 24"W x 22"D
- **Wheels:** 10-1/2" Non-Marking, No-Flat Tires
- **Weight:** SpinDuct Machine: 125 lbs.
- **Electricity:** Two 15amp Power cords. 115v, 60 Hz.
